Single Skin Partitioning

Solid / Glazed / Solid above

Solid full height

Solid / Mesh above

Mesh full height

TYPICAL SINGLE SKIN FLOORPLAN LAYOUT

Solid / Glazed above

An ideal solution where a high quality and cost effective partitioning system is required for separating work or storage areas.

SPECIFICATION:

Panels are constructed from 43 x 43 x 1.2 mm (18g) cold-rolled angles and 32 x 32 x 0.7 mm (22g) cold-rolled T bars. Panels are available in solid, mesh or solid/glazed/solid elevations.

Choice of powder coated finishes.

Demountable and relocatable.

Ceiling solutions available to complement our partitioning.

STANDARD PANEL SIZES:

Height	2,400, 2,700, 3,000 mm
Width	1,000 mm
Dado Height	1,200 mm
Thickness	43 mm

A range of infill and special sized panels can be supplied to achieve final dimensions.

Side hung and sliding door options available.

MULLION SIZES:

50 x 50 x 2.5 mm	up to 2,700 mm high
80 x 40 x 2.5 mm	2,700 mm and above
100 x 50 x 3.0 mm	to suit installation

All Two-Way (intermediate) mullions have base plates for floor fixing. Knee braces and/or ladder mullions may be fitted for extra stability and strength.

Double Skin Partitioning

Fully glazed

Solid / Glazed / Solid above

Solid / Glazed above

Solid full height

Individual component breakdown

TYPICAL DOUBLESKIN FLOORPLAN LAYOUT

An alternative higher quality partitioning system where a smooth interior finish or good sound reduction is required. Ideal for works offices, clean rooms and storage areas for chemicals and food products.

SPECIFICATION:

Panels are constructed from 25.4 x 42 x 25.4 x 1.2 mm (18g) cold rolled channels panelled both sides with 0.8 mm (21g) CR4 mild steel sheet with 30 mm Rockwool mineral fibre infill and are joined together using an 'H' section. Panels are available in solid, half-glazed, solid/glazed/solid or borrowed light elevation.

Choice of powder coated finishes.

Demountable and relocatable.

Ceiling solutions available to complement our partitioning.

STANDARD PANEL SIZES:

Height	2,400, 2,700, 3,000 mm
Width	1,000 mm
Dado Height	1,200 mm
Thickness	47 mm

A range of infill and special sized panels can be supplied to achieve final dimensions.

Side hung and sliding door options available.

MULLION SIZES:

50 x 50 x 2.5 mm	up to 2,700 mm high
80 x 40 x 2.5 mm	2,700 mm and above
100 x 50 x 3.0 mm	to suit installation

All Two-Way (intermediate) mullions have base plates for floor fixing. Knee braces and/or ladder mullions may be fitted for extra stability and strength.

Safety Products

Anti-Collapse Panels

Designed as a mesh screen to clad pallet racking, and increase safety while handling pallets and palletised items. Panels are constructed from cold-rolled angle and cold-rolled T-bar into which mesh sheets are spot-welded to give added strength and resistance to impact.

Manufactured to suit the racking bay centres, thus eliminating the need to cut and fabricate panels on site and are bolted together for added strength and rigidity.

Triangular stand-off brackets, which act as spacers between the racking and the mesh panels, can be made to suit customers' requirements.

The intermediate brackets are reversible so that they do not interfere with the racking beams. Every installation is manufactured to fit each individual site, thus ensuring easy and fast installation time.

PRODUCT SPECIFICATION:

Angle Framework	43 x 43 x 1.2 mm
T-bar	32 x 32 x 0.7 mm
Mesh Sheets	75 x 75 x 3 mm
Stand-off Bracket	75 to 350 mm deep
Standard Panel	1,245 mm high
Finish	Powder-coated to match or contrast with the racking system

Pedestrian Safety Barriers

A light duty system providing a simple and economical way to create safe pedestrian areas at ground or raised floor level, in factory or warehouse.

The recommended maximum height of rails is 1,100 mm, the recommended maximum length of rail between each post is 2,000 mm.

Height and length of rail are manufactured to suit customers' requirements.

Single or double rails are bolted to posts, allowing individual components to be replaced easily.

PRODUCT SPECIFICATION:

Rail	Hollow section 50 x 50 x 2.5 mm
Posts	Hollow section 50 x 50 x 2.5 mm Post tops fitted with black plastic inserts
Base Plates	150 x 50 x 10 mm
Finish	Powder-coated Yellow RAL 1018 or to customers' requirements

Tubular Barriers

Tubular barriers are low level and heavy duty with rounded corners for protection of people and equipment.

PRODUCT SPECIFICATION:

Height	500mm or 750mm
Individual barrier length	up to 2,500mm
Maximum length with centre post	4,000mm
Finish	To customers' requirements

Crash Barriers

Our crash barriers consist of steel rails bolted to support posts, mounted on base plates, and are designed to protect machinery, racking, shelving and partitioning from damage.

PRODUCT SPECIFICATION:

Heavy Duty Steel Rail (galvanised)	312 mm deep 3.2 m lengths Twin rail version available
Support Post	100 x 100 x 3.5 mm Height 750 mm Special heights can be supplied
Base Plate	200 x 200 x 10 mm
Finish	To customers' requirements

For more information on any of our safety products please call 01384 261412 or visit www.baxcrest.co.uk

Bespoke Manufacturing

Our wide range of experience and detailed industry knowledge means that we are able to meet non standard and specific customer requirements. We can design and install many other products to meet your needs including:

WALK ON ROOF	Stable roof structure enabling access for plant maintenance and equipment support (above left)
HAND RAIL INFILLS	Profiled panels that hook over existing hand rails (above centre)
PALLET RACKING PICKING BAYS	Heavy duty end of bay Elephant Cages (above right)
PALLET RACKING QUARANTINE CAGES	Colour coded mesh cages built into the pallet racking
MESH DECKS	Heavy duty with 1,000 kgs UDL point loading
STANDARD SIZED MESH CAGES	Galvanised or Powder Coated with one day delivery
PALLET FEET STILLAGES	Bespoke sizes and stackable
POWDER COATING SERVICE	Small parts powder coating service

If you have a non-standard or specific requirement then please contact us for a quote on 01384 261412 or www.baxcrest.co.uk

Testimonials

Baxcrest have never let me down in 20 years – the best service in the business

Our customers need high quality products at a competitive price. You cannot beat Baxcrest for this

Baxcrest are always flexible. They have a great team of people helping us look after our customers
